

SC017 Health and Safety - Safety Signs

Course Outline:

Whether you're restricting access to a particular area, alerting employees to potential hazards or simply providing direction, safety signs play an important role at the work place. The safety signs awareness training course explains the different types of safety signs and symbols and how and where health and safety signs should be used to ensure they are most effective. The course also outlines how to ensure that people are properly informed about workplace hazards and to provide appropriate information

This course is tailor made for the trainees present and the type of work they are regularly performing.
