

SC026 Health and Safety – MEWP – Mobile Elevated Working Platforms

Course Outline:

Workers engaged in Mobile Elevated Working Platforms operations are required to receive training on the safe operation of such machinery.

The course will endeavour to explain 'best-practices' methods of operations. The theoretical aspects of the course are complimented by practical sessions during which basic operations are explained, with an emphasis on safe operation.

The course will endeavor to consolidate practical experience acquired on site by giving a theoretical insight to such experience. The course will endeavour to expose and explain the benefits of 'best-practices' required for safe operation of MEWPs

Who May Apply?

Anyone required to operate any type of MEWP

Learning Objectives:

- Safety First
- General Safety Rules
- Before, during and after the execution of the work
- Signage and communication
- Safety features and lock-outs
- Gantry crane structure
- Comparison between different types of equipment
